1 = Out of Tx. _____ 3 = In "Tx Prog of Record" (Item #2) _____
2 = On Wait List _____ 4 = In a different Tx. Prog (Item #3) _____

COMMENTS:

General Instructions for Interviewers:

There are two sections in each of the problem areas with special definitions and instructions for each section. Review the manual for special circumstances.

Specialized Services Section -

Specialized: group or individual sessions/services that focus upon a particular problem. More often than not, these services are provided by a specialist (e.g., vocational counselor, family therapist, psychiatrist). They are NOT general counseling sessions. **We count only those services that the client actually received.**

For each question on the TSR, the interviewer asks whether the client received a particular service. If yes, the interviewer asks if the client received this service **at the treatment program s/he currently attends**. (At Prog) or whether the client was referred to another program for this service (Out Prog).

Note: Many programs operate satellite sites. If the client received a service at a satellite site of the treatment program s/he currently attends, this is counted as "At Program".

General Counseling Section -

General counseling: group or individual sessions that focus on a range of problems or topics. Typically, these are the counseling sessions that the client receives at the treatment program s/he currently attends. **Again, we count only those sessions that the client actually attended.**

NOTE: Sessions/services should be coded EITHER in the Specialized Services Section or the General Counseling Section. Do not double-count services/sessions.
