Remember: This is an interview, not a test

- Item numbers circled are to be asked at follow-up.
- Items with an asterisk* are cumulative and should be rephrased at follow-up.
- Items in a double border gray box are questions for the interviewer.

Do not ask these questions of the client.

INTRODUCING THE ASI: Seven potential problem areas: Medical, Employment/Support Status, Alcohol, Drug, Legal, Family/Social, and Psychological. All clients receive this same standard interview. All information gathered is confidential.

There are two time periods we will discuss:
1. The past 30 days
2. Lifetime Data

Patient Rating Scale: Patient input is important. For each area, I will ask you to use this scale to let me know how bothered you have been by any problems in each section. I will also ask you how important treatment is for you for the area being discussed.

The scale is:
0 - Not at all
1 - Slightly
2 - Moderately
3 - Considerably
4 - Extremely

If you are uncomfortable giving an answer, then don't answer.

Please do not give inaccurate information!

INTERVIEWER INSTRUCTIONS:
1. Leave no blanks.
2. Make plenty of Comments (if another person reads this ASI, they should have a relatively complete picture of the client's perceptions of his/her problems).
3. X = Question not answered.
4. N = Question not applicable.
5. Terminate interview if client misrepresents two or more sections.
6. When noting comments, please write the question number.
7. Tutorial/clarification notes are preceded with "*".

HALF TIME RULE: If a question asks the number of months, round up periods of 14 days or more to 1 month. Round up 6 months or more to 1 year.

CONFIDENCE RATINGS:
- Last two items in each section.
- Do not over interpret.
- Denial does not warrant misrepresentation.
- Misrepresentation = overt contradiction in information.

Probe and make plenty of comments!

ALCOHOL/DRUG USE INSTRUCTIONS:
The following questions look at two time periods: the past 30 days and lifetime. Lifetime refers to the time prior to the last 30 days. However if the client has been incarcerated for more than 1 year, you would only gather lifetime information, unless the client admits to significant alcohol/drug use during incarceration. This guideline only applies to the Alcohol/Drug Section.

⇒ 30 day questions only require the number of days used.
⇒ Lifetime use is asked to determine extended periods of use.
⇒ Regular use = 3+ times per week, binges, or problematic irregular use in which normal activities are compromised.
⇒ Alcohol to intoxication does not necessarily mean "drunk", use the words felt the effects", "got a buzz", "high", etc. instead of intoxication. As a rule of thumb, 5+ drinks in one setting, or within a brief period of time defines "intoxication".
⇒ "How to ask these questions:
⇒ "How many days in the past 30 have you used....?"
⇒ "How many years in your life have you regularly used....?"
